Clinical Endocrinology (1984) **21,** 735–738

Subject Index to Volume 21

Acromegaly
  and pituitary hormones and marker enzymes, 515
  TSH and PRL responses to dopamine receptor blockade, 369
ACTH
  bioassay with guinea-pig adrenal cells, 33
Addison's disease
  and hyperprolactinaemia, 451
Adenomatous cells
  and thyroglobulin secretion after monolayer culture, 239
Adrenal hypoplasia
  and GnRH therapy, 597
Adrenalectomy
  ovarian steroidogenesis and 21-hydroxylase deficiency, 575
Adrenergic denervation
  and gastroenteropancreatic system, 639
Aldosterone
  deficiency in idiopathic haemochromatosis, 271
  inhibition by somatostatin, 279
  and metoclopramide, 1
Alpha-subunit
  in pituitary tumour, 123
Androgen
  and progesterone in hirsute women, 383
Angiotensin II
  somatostatin inhibits aldosterone response, 279
Anterior pituitary hormone release
  and calcium antagonists, 233
Antithyroid drugs
  and Graves' disease, 163
Arginine
  and somatostatin, 299
Autoimmune atrophic thyroiditis
  and thyroid function-blocking antibodies, 345
Autonomous thyroid nodules
  and thyroglobulin, 377

Bioassay
  for ACTH, 33
Beta-adrenergic mechanism
  and gluceoneogenesis from glycerol, 399
Bromocriptine
  effect in hyperprolactinaemia, 131

Calcium antagonists
  and anterior pituitary hormone release, 233
Calcium homeostasis
  genetic control, 465
Carbohydrate metabolism
  effect of cyproterone acetate and ethinyl oestradiol, 689
Catecholamine
  and cold, 285
Children's performance
  and maternal thyroid hormone, 265
Chlorpropamide alcohol flush
  and endogenous opioids, 489
Cimetidine
  and L-dopa stimulated GH release, 535
Cirrhosis
  hyperinsulaemia and insulin resistance, 657
  insulin resistance and post-receptor defect, 677
Cold
  effect on hormones, 285
Corticosteroid-binding globulin deficiency, 541
Corticotrophin releasing factor
  effects of, 589
Cortisol
  11β-oxidation and mineralocorticoid excess, 505
Cushing's disease
  transsphenoidal microsurgery for, 621
Cyproterone acetate
  effect on carbohydrate metabolism, 689

DHEAS loading test
  diagnoses placental sulphatase deficiency, 155
Diabetics
  renin activity in raised glomerular filtration rate, 409
24,25-Dihydroxycholecalciferol
  radioimmunoassay, 71
1,25-Dihydroxyvitamin D
  influence of calcium in renal stone formers, 549
Domperidone
  effect on GH, 339
  effect on LH, FSH, prolactin and thyrotrophin in PCOS, 611
L-Dopa
  and cimetidine and GH release, 535
Dopamine receptor blockade
  TSH and PRL responses in acromegaly, 369
  stimulates β-endorphin in pregnancy, 583

Endogenous opioids
  in chlorpropamide alcohol flush, 489
β-Endorphin
  stimulated by sulpiride dopaminergic blockade in pregnancy, 583

Ethinyl oestradiol
effect on carbohydrate metabolism, 689
Etomidate
anti-adrenal steroidogenic effect, 721

Familial hypocalciuric hypercalcaemia
and hyperparathyroidism, 57
and parathyroid hormone, 293
Fetal growth control
insulin and related peptides, 415
Follicle stimulating hormone
and domperidone, 611
in pituitary tumour, 123

Gastrin
response to intraduodenal infusion, 209
Gastroenteropancreatic system
and adrenergic denervation, 639
Genes and calcium homeostasis, 465
GIP
response to intraduodenal infusion, 209
Globulin
deficiency of binding to corticosteroid, 541
Glomerular filtration rate
and renin activity in diabetes, 409
Gluconeogenseis
in hyperthyroidism, 399
Glycerol
and gluconeogensis in hyperthyroidism, 399
Goitre
recurrence, 529
thyrotoxicosis after normal iodine intake, 631
Gonadotrophin
and GnRH in precocious puberty, 499
and LHRH agonist, 179
Gonadotrophin releasing hormone
in adrenal hypoplasia and Kallmann's syndrome, 597
in precocious puberty and gonadotrophin, 499
in pulsatile administration for hypogonadotrophic hypogonadism, 223
Graves' disease
and antithyroid drugs, 163
and thyroid stimulating antibodies, 247
GRF(1–40)
effect on GH, 339
Growth hormone
effect of cimetidine on L-dopa stimulated release, 535
effect of GRF(1–40) and domperidone, 339
and somatostatin after TRH injection, 459
effect on secretion by somatotrophic pituitary tumours, 709
responsiveness to human pancreatic growth hormone releasing factor in acromegaly, 701
deficiency and GHRH analogues, 319
deficiency and pancreatic growth hormone releasing factor 1–44, 569
Growth hormone-releasing homone analogues
in GH deficient subjects, 319
Growth hormone-releasing hormone 1–44
and diagnosis of hGH deficiency, 9

Haemochromatosis
and aldosterone deficiency, 271
Hirsute women
progesterone and androgens in, 383
HLA haplotype
and familial hypocalciuric hypercalcaemia, 57
Hormone levels
and stanozolol, 49
Human corticotrophin releasing factor
effects of, 589
21-Hydroxylase deficiency
and steroidogenesis after adrenalectomy, 575
3β-Hydroxysteroid dehydrogenase
and trilostane, 13
Hyperinsulinaemia
and cirrhosis, 657
Hyperparathyroidism
and hypocalciuric hypercalcaemia, 57
Hyperprolactinaemia
and auto-immune Addison's disease, 451
effect of bromocriptine, 131
in hypogonadal men, 257
Hyperthyroidism
antithyroid treatment during lactation, 81
and gluconeogenesis from a beta-adrenergic mechanism, 399
Hypoglycaemia
in Type II diabetics and sodium salicylate, 649
and somatostatin release, 667
Hypogonadal men with hyperprolactinaemia
and luteinizing hormone, 257
Hypogonadotrophic hypogonadism
and pulsatile GnRH, 223
Hypogonadotrophic hypogonadism
and pulsatile LHRH, 189
Hypomagnesaemia, 435
Hypothalamic GH releasing factor
and irradiation, 483
Hypothalamic hGH deficiency
diagnosis with synthetic GH-RH 1–44, 9
Hypothyroidism
and L-thyroxine, 393

Immunoreactive γ-MSH measurement, 139
Iodine
thyrotoxicosis after normal intake in goitre, 631
Insulin
in fetal growth control, 415
response to intraduodenal infusion, 209

Insulin resistance
and post-receptor defect in cirrhosis, 677
Insulin-induced hypoglycaemia
and somatostatin, 667
Irradiation
and hypothalamic GH releasing factor deficiency, 483

Kallmann's syndrome
and GnRH therapy, 597

Lactation
and antithyroid treatment, 81
Luteinizing hormone
effect of domperidone, 611
secretion in hypogonadal men with hyperprolactinaemia, 257
Luteinizing hormone releasing hormone
pulstatile infusion in hypogonadotrophic hypogonadism, 189
LHRH agonist
effect on gonadotrophin and steroid, 179

Maternal thyroid hormone
and children's performance, 265
Mammary gigantism
and D-penicillamine, 219
Megestrol acetate
anti-adrenal steroidogenic effect of, 721
Mestranol
and response to TRH, 65
Meta-iodobenzylguanidine
in metastatic phaeochromocytoma, 525
Metoclopramide
and aldosterone and regulatory factors, 1
and vasopressin, 117
Mineralocorticoid excess
and deficient 11β-oxidation of cortisol, 505
Monolayer culture
and thyroglobulin secretion, 239
γ-MSH measurement, 139

Neonates
thyroglobulin in, 149
Nontoxic goitre
recurrence, 529
Nutrients
intraduodenal infusion and hormones, 209

Obesity
and triiodothyronine in semi-starvation, 357
Oöphorectomized women
and effect of mestranol on TRH in, 65
Oral glucose
and GH secretion, 477
Ovine corticotrophin-releasing factor
effect of, 589
11β-Oxidation of cortisol
and mineralocorticoid excess, 505

Pancreatic growth hormone releasing factor
in acromegaly, 701
effect on GH secretion by somatotrophic pituitary tumours, 709
and GH deficiency, 569
amide, 201
amide and GH secretion, 477
Pancreatic polypeptide
in renal failure, 23
Parathyroid hormone, 435
in familial hypocalciuric hypercalcaemia, 293
D-Penicillamine
and mammary gigantism, 219
Phaeochromocytoma
and meta-iodobenzylguanidine, 525
Pituitary hGH deficiency
diagnosis with synthetic GH-RH 1–44, 9
Pituitary tumour
α-subunit and FSH in, 123
and pituitary tumours and marker enzymes, 515
Polycystic ovarian syndrome
domperidone and hormones in, 611
Prealbumin variant
and T4 and rT3, 331
PRL
and dopamine receptor blockade in acromegaly, 369
Progesterone
and 5α-reduced androgens in hirsute women, 383
Proinsulin
in serum, 43
Prolactin
and cold, 285
effect of domperidone, 611
and suckling, 109
Prolactinoma
pituitary hormones and marker enzymes, 515

Radioimmunoassay
for 24,25-dihydroxycholecalciferol, 71
Regulatory factors
and metoclopramide, 1
Renal failure
pancreatic polypeptide in, 23
Renal stone formers
calcium and 1,25-dihydroxyvitamin D concentrations, 549
Renin activity
in diabetics with revised glomerular filtration rate, 409
Reverse T3
and prealbumin variant, 331

Semi-starvation
in obesity and triiodothyronine, 357
Serum
proinsulin in, 43
Sexual behaviour
effect of bromocriptine in hyperprolactinaemia, 131
Smoking
and thyroregulatory changes, 605
Sodium salicylate
and hypoglycaemia in Type II diabetics, 649
Somatostatin
inhibits aldosterone response to angiotensin II, 279
and GH after TRH injection, 459
and insulin-induced hypoglycaemia, 667
and arginine, 299
response to intraduodenal infusion, 209
and GH responsiveness to human pancreatic growth hormone releasing factor, 701
Stanozolol
and hormone levels, 49
Steroid
and LHRH agonist, 179
Steroidogenic effect
of etomidate and megestrol acetate, 721
Steroidogenesis in adrenalectomized girl with 21-hydroxylase deficiency, 275
Suckling
and prolactin, 109
Sulphatase activity
DHEAS loading test for, 155
Sulpiride
stimulates β-endorphin in pregnancy, 583

T4
and prealbumin variant, 331
Testosterone replacement therapy, 97
Thyroglobulin
and autonomous thyroid nodules, 377
in preterm neonates, 149
secretion after monolayer culture, 239
Thyroid function-blocking antibodies
in autoimmune atrophic thyroiditis and transient neonatal hypothyroidism, 345
Thyroid hormone
and cold, 285
in hypothyroidism treated with L-thyroxine, 393
Thyroid stimulating antibodies
and Graves's disease, 247
Thyroregulatory changes
and smoking, 605
Thyrotoxicosis
in goitre following normal iodine intake, 631
Thyrotrophin
and cold, 285
effect of domperidone in, 611
in hypothyroidism treated with L-thyroxine, 393
Thyrotrophin releasing hormone
and mestranol, 65
L-Thyroxine
and hypothyroidism, 393
Transient neonatal hypothyroidism
and thyroid function-blocking antibodies, 345
Transsphenoidal microsurgery
for Cushing's disease, 621
Triiodothyronine replacement
and semistarvation in obesity, 357
Trilostane
bioassay for, 13
TSH
and dopamine receptor blockade in acromegaly, 369

Vasopressin
and metoclopramide, 117
